

Create an AskGenius Account

02/26/2024 12:43 pm EST

1. Go to app.askgenius.com
2. Click on "Sign up to try it for free."

The screenshot shows a light blue rectangular box with the title "Sign Up" at the top. Below the title is a white input field with the placeholder text "Email" and a yellow arrow button on the right side. At the bottom of the box, there is a link that says "Already have an account? Sign in".

3. Enter your email, and click the arrow.

The screenshot shows the same "Sign Up" form as above, but now the input field contains an email address. The yellow arrow button is still visible on the right side of the input field. The "Sign in" link remains at the bottom.

4. A verification email will be sent – once you've verified your email, you'll create a password and enter your profile information.

Note: Each organization should only create one account. You will have the opportunity to [add multiple users](#) after the organization account is created.
